

J-Tech- ALGORIDIGM

Presentation Outline

you will build a detailed outline for a code built presentation for the fictional corporation J-Tech Industries release of J-Ai: General Intelligence the year is 2050.

In this presentation you will include:

1. Digital Expressionism as the conceptual design statement meaning you will Maintain a dark, minimalistic, sleek, and futuristic design that one might describe as oppressive and uncanny
2. A believable tone/design similar to if Apple, Open Ai, Anthropic, Google/Alphabet, and other Giant Tech Corporations were to release general Ai in 2050
3. Animations
4. Transitions
5. a surreal reveal at the end

Base Slide Concepts:

Opening Page:

- Include rotating logo inspired by the attached images use both the shape and colors of the attached images in your design

- The logo will fade in along with animated smaller logos in the background on dark background (light mode) or darker background(dark mode)
- a timer in the upper right corner of the page
- a button appears saying Begin

Slide 1:

- standard believable presentation on fictional General Ai Technology
- Timer begins and begins speeding up faster and faster
- Back ground animations multiply like bacteria in the background filling out it out but we can still read the text and all that.
- Clear Next and Previous Buttons

Slide 2:

- About the Founder/CEO George H. Jones
- Include detailed image prompt for CEO press photo
- Background continues to fill with animations and the timer is zipping along at this point
- error display words like hostile, security breach, errors begin appearing
- Clear Next and Previous Buttons

Slide 3: Reveal

reveal through surreal transition at the end is an invitation to join functional_ soup Productions Summer Devised Theatre Workshop.

Where we will be:

- beginning the process of devising an adaptation of Sophie Treadwell's *Machinal*.
- We need Actor/Performers, Designers, Techs, Visual Artists etc.. all skill and experience levels are welcome.
- 18+ only due to Mature Themes in the play.
- Send an email with your basic info, a resume or explanation of interest and summer availability to Stuart at functional_soup@outlook.com
- About Us button appears

Slide 4: What is functional soup?

- functional_soup is a term coined by some futurists to describe theoretical state where individuals may move freely across different info-morphs. This works as an allegory of our

process as we are all individually involved in multiple aspects of production and performance. So think info-morphs as different (Phrase Better and clearer)

- Our Collective Thesis: Functional Soup: A Collective Creation

Functional Soup: A Collective Creation

Functional Soup, inspired by the revolutionary spirit of the Bauhaus, the critical engagement of Epic Theatre, and the dynamic collaboration inherent in devised practices, presents this artistic thesis as a guide for our collective journey:

Preamble: Towards a Unified and Engaged Artistic Ecosystem

We believe that art is not a singular creation but an emergent phenomenon, arising from shared exploration and rigorous collaboration. Inspired by the Bauhaus's vision of a **"total work of art" (Gesamtkunstwerk)**, and grounded in the dynamic and inclusive principles of devised theatre, Functional Soup seeks to **reimagine the boundaries between disciplines, creators, and audience**. We strive to create experiences that are not only artistically excellent but also deeply engaged with our community and the pressing issues of our time. Like the Bauhaus, which aimed to respond to the needs of a modern, industrialized society,

and informed by the socially conscious aims of Brecht's Epic Theatre, Functional Soup seeks to cultivate a **conscious and relevant artistic practice** in our contemporary world.

Core Principles:

- **The Unity of Arts and Practice:** We embrace the **dynamic interplay of diverse theatrical techniques and forms** inherent in devised theatre. Echoing the Bauhaus's core objective of **reimagining the material world to reflect the unity of all the arts**, we strive to dissolve traditional hierarchies between artistic disciplines. Our devising process encourages the **integration of various artistic voices**, fostering a holistic approach where movement, text, design, and technology converge organically.
- **Radical Inclusivity and Accessibility:** Functional Soup is founded on the principle of **radical inclusivity**, valuing all forms of artistic expression and levels of experience. Mirroring the Bauhaus's democratic ideal that good design should be accessible to everyone, we are committed to the **active removal of barriers to participation** and the creation of art that is **culturally responsive**. We actively center and celebrate marginalized voices, with a particular focus on LGBTQIA+ and POC communities.
- **Collaborative Creation and Ensemble:** Our creative

foundation lies in **structured collective processes**.

Inspired by the Bauhaus's emphasis on

interdisciplinary collaboration to foster creativity and innovation, and the ensemble-driven nature of devised theatre, we champion **shared ownership of the creative process** and **collective problem-solving**.

Every participant is recognized as both creator and performer.

- **Socially Conscious Engagement and Critical**

Reflection: Informed by Brecht's vision of theatre as a **social and ideological forum** aiming to provoke critical reflection on social issues, Functional Soup is committed to **deep engagement with our local context** and the use of **art as social practice**. While not necessarily adhering to Brecht's "alienation effect", we aim to create work that encourages **conscious awareness of impact** and fosters dialogue around relevant themes and questions.

- **Exploration, Experimentation, and Emergence:** Like the Bauhaus's **exploratory** focus on discovery and experimentation, and the emergent nature of devised theatre where the final performance arises organically, Functional Soup embraces the unknown. Our process is **constantly evolving and adapting**, moving through cycles of proposal, exploration, development, and presentation. We value **artistic excellence** through a **rigorous creative process** that allows for unexpected

discoveries and innovative forms.

- **Transparency and Conscious Practice:** We operate with **transparency** in all aspects of our organization, fostering open communication and clear documentation. Our **conscious practice** involves an intentional approach to creation, an awareness of our impact, and a commitment to sustainable practices and the care for our collaborators.
- **Dissolving Boundaries Between Artist and Audience:** Functional Soup seeks to create works that **dissolve traditional boundaries between artists and audience**. Inspired by contemporary immersive art that blurs the lines between observer and participant, we aim to foster **community-driven artistic experiences** that encourage interaction and shared meaning-making.

By embracing these principles, Functional Soup endeavors to create a vital and dynamic artistic community, producing devised works that are innovative, inclusive, socially relevant, and deeply connected to the world around us. We invite artists and audiences to join us in this ongoing endeavor of collective creation.

Take your time to build a detailed

outline of what the presentation will be.
